MEENA VUPPU

PRODUCT DESIGNER

+91 9515678423 | vuppumeena@gmail.com | Portfolio

PROFESSIONAL SUMMARY

Product Designer building 0→1 products and improving existing fintech experiences across investments, lending and financial services. I use customer insight, product data and business context to turn complex journeys into simpler experiences, working end-to-end from problem framing and product flows to prototyping, UI and implementation. Engineering and QA experience helps me design with technical constraints in mind.

WORK EXPERIENCE

Muthoot FinCorp ONE

Product Designer *Oct 2024 – Present*

- Owned the **0→1 design of Vyapar Plus**, translating complex lending operations into onboarding, lead-generation and verification (BDO) journeys; the platform reached 25%+ of its three-month onboarding target within two weeks.
- Challenged the existing Digital Gold experience using customer research and 80K+ journey entries to **restructure information hierarchy and simplify investment decisions**.
- Reworked the **Fixed Deposit** journey by consolidating amount, tenure, interest rates and expected returns into one cohesive experience, **addressing friction** identified **through funnel analysis** and customer feedback.
- Designed credit-score and financial engagement journeys across CRIF, CIBIL, rewards and payments, supporting products with 155K+ monthly unique users.
- Designed across lending, forex and payments, from discovery and prototyping through **stakeholder alignment and developer handoff**.

DevOps Engineer *Jul 2023 – Sep 2024*

- Automated Slack → AWS S3/SSM parameter updates, reducing turnaround from 2–3 days to <10 minutes; built Jenkins/AWS ECS deployment workflows scaling from monoliths to ~12 microservices.

Tata Consultancy Services

Systems Engineer *Jan 2021 – Jul 2023*

- Supported operations and release validation across 5+ Bank of America projects.

SKILLS

Product Design

Product Strategy · User Flows · Information Architecture · Interaction Design · Prototyping · Visual Design · Design Systems · Usability Testing

Product & Research

Funnel Analysis · User Research · Competitor Analysis · Data-informed Design · Stakeholder Collaboration · Developer Handoff

Tools & AI Workflows

Figma · Figma MCP · Claude · Codex · GitHub · Vercel · CleverTap · Jira

EDUCATION

Top Fellow – UI/UX Designer Fellowship *Feb 2025*

NextLeap

Bachelor's degree, Computer Science | CGPA: 9.20/10 *2016 – 2020*

Pragati Engineering College, Andhra Pradesh.
